Vol. 8 No. 33 August 25, 1960. A. Piffard, Publisher. Box 130, Drayton Valley, Alberta.

Inquest: Robert McLaren Death

On July 25th, 1960 Coroner Dr. T. H. Brooks held an inquest in the Town Hall into the death of Robert McLaren.

The jury found that Robert McLaren died on 18th July in The Royal Alexandra Hospital due to being crushed between a truck and a cat walk on Oil Lease Pan American CIL, 14 miles N.W. of Drayton Valley on July 17th, 1960 accidental death.

Three recommendations were made as follows:

1. That trucks using vacuum air hand brakes should be equipped with pressure and holding gauges.
2. That trucks should be equipped with blocks to be placed under wheels before swamps go behind truck.
3. That drivers make sure all safety devices be fully applied before leaving truck.

Members of the jury were: Mr. Jack Falls, Mr. J. M. L. Matlock, Mr. L. Barnard, Mr. Stewart, C. Luman, Mr. Wm. E. Nordquist, Mr. W. F. Davies.

T. H. Brooks,
Coroner.

Highschool Hearing Completion

Almost completed is the new addition to the Frank Maddock Highschool in Drayton Valley, which will add nine classrooms and a library, an additional total of some 11,000 square feet of floor space, to the school. The new addition is of cement block construction.

Work was started by Stony Plain School Division building department under the direction of

Superintendent Felix Knorr, in early summer and has been rushed to completion, with some fifteen men employed by the School Division on the project. It is expected that the new addition will be fully completed by Sept. 8th. Original plan had been to complete the school by September 1st, but the work was delayed by late arrival of lockers and black boards. Stony Plain School Division also has another teacher's age under construction.

When fully completed and landscaped the fourteen room highschool will be a distinctive building in this community. One which we may proudly show off when taking visitors on a tour of the town and district.

Picture on bottom of page

New Addition to Hospital Started

New West Construction is pushing work on the fifteen bed addition to Drayton Valley Municipal Hospital. The project will cost approximately \$65,000, exclusive of furnishings and equipment, which are expected to cost in the neighborhood of \$25,000.

The projected fifteen beds will include a four-bed pediatric ward, three private ward beds and eight semi-private ward beds.

It is expected that the last day of November should see the project completed and ready for use. The new addition will bring to 35 beds the Drayton Valley Hospital.

A unique feature of the new addition will be piped-in oxygen and suction to every room.

Picture on page 4

Stolen Safe Recovered

A safe stolen one weekend from the Crown Lumber Company in Drayton Valley was recovered at an abandoned farm in the Stony area, last week. Thieves

evidently had loaded the safe into a truck or pickup after breaking into the lumber company office and had taken it to the abandoned farm where they attempted to open it by breaking off the knob. This failing they took an axe and hatched into the side of the safe until they had reached the interior.

The safe was completely ruined. Several hundred dollars in money and a number of cheques had been placed in the safe when it was locked for the evening before the break in. All the money and cheques were missing when the safe was discovered, as well as a number of other papers. However, a few papers were found near the abandoned safe. Police are checking the safe and the few remaining papers for fingerprints and expect to make arrests in the near future.

Parking Meters

When the street paving program is finished in Drayton Valley something "new" will be added to the streets. The new feature for Drayton Valley Streets will be parking meters, sometimes called "one-arm bandits".

Most streets will be one-hour parking zones, some will perhaps be fifteen minutes, half-hour or two hour parking zones eventually. It is expected that the new meters will help downtown merchants as vehicle will be kept moving more regularly and it should be easier to find a parking place in front of or near a downtown store.

POLICE COURT

Drayton Valley Police Court continues to have well-filled dockets each time court convenes. In last Tuesday's court, before Magistrate Clendenning, four cases of intoxication were dealt with, three cases of illegal possession and one case of illegal consumption of liquor (continued on page 10, col. 3)

District Personalities

Photo by Cur's Studio

Mr. Michael Gormley

Meets the new Recreation Director for the Town of Drayton Valley. Mike was born in Sherbrooke, Quebec, of Irish parents. He attended elementary school in Quebec and then took high school and two years in University of St. Mary's College, in Brockville, Ontario. His father was in the construction industry and worked over various parts of Quebec and Ontario.

Mr. Gormley spent his summers while in school in surveying and as assistant to civil engineers. After college he spent four years as a sporting goods salesman with a large sporting goods firm in Sherbrooke Quebec. He then came out to Western Canada and hired on with the C. M. R. as timekeeper and contact-man for the Edmonton office, working with extra gangs in Saskatchewan and Alberta.

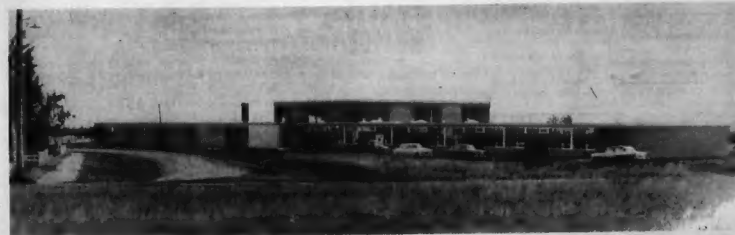

Very sports-minded Michael has played quite a bit of hockey and football. He played football

with St. Mary's and later at Sherbrooke, and played hockey also. While serving as goal-keeper he suffered a severe eye injury and has played but little hockey since, but he still maintains his avid love for the game.

At one time he was rated as a first-class Amateur boxer, fighting in the welterweight class, 146 pounds. He has coached and trained boxers also. He has coached football and Pinesee football and is intensely interested in both.

He came to Wainwright in 1957 and the same year took over as assistant coach of the Wainwright boxing club. He took over as coach for the club the following year and worked up a good string of boxers as our boys who went from our local club to the boxing matches in Wainwright last spring can testify.

He went to work as Public Relations Officer at bladed Park near Wainwright from there he (continued on page 10, col. 3)

PUBLIC NOTICE

The Town of Drayton Valley Notice is hereby given that, under the provisions of the Town and Village Act, the Voters' list of the town of Drayton Valley, in Alberta, has been prepared and that a copy of the said Voters' list is posted in the office of the Secretary-Treasurer.

The posted list is open for inspection during regular business hours.

Any qualified voter/elector may make application for the correction of any error or omission in the said Voters' list by serving notice upon the Secretary-Treasurer in writing on or before the sixteenth day of September A.D. 1960

Dated at the Town Office in Drayton Valley this 9th day of August A.D. 1960.

The Town of Drayton Valley
W.G. Johansson
Secretary-Treasurer.

PUBLIC NOTICE

The Town of Drayton Valley NOTICE IS HEREBY GIVEN THAT THE COUNCIL OF THE TOWN OF DRAYTON VALLEY PROPOSE TO PASS A BY-LAW NO. 214 OF THE TOWN OF DRAYTON VALLEY BEING A BY-LAW TO AMEND BY-LAW NO. 91 BEING THE ZONING BY-LAW OF THE SAID TOWN.

THAT BY-LAW NO. 214 authorizes the Council of the Town of Drayton Valley to amend By-Law No. 91 as follows:

Pembina News Advertiser

"SERVING THE LARGEST (BY-POPULATION) NORTH AMERICAN CONTINENT"

Drayton Valley, Alberta. Box 120 Phone 157
At Playford.....Editor.

Subscription-\$2.00 per year in Canada. \$3.50 in the U.S.A. and Foreign Countries. Single copies-10¢.
Authorized at Second Class Mail, Post Office Dept., Ottawa.....

1. That that portion of Lot 1 in Block 35 lying to the Western most side and being of approximate measurement of 150 feet in width and 300 feet in the full depth of the lot be re-zoned from Industrial to Tourist classification.

A copy of the said By-Law and the Map of the proposed area may be examined in the Town Office at all reasonable hours of business.

A Public meeting will be held in the Town Office at 10:00 a.m. on the 30th, day August 1960 for the Council to consider any objections, complaints or recommendations pertaining to this amendment.

A second conviction for any of these offences will mean that the Magistrate will suspend the driver's license immediately and return it to the Department.

All of this is being done in an attempt to reduce the traffic loss of human life that is taking place on our highways and streets.

2. Persons desiring to learn how to drive under the tutelage of a driver who holds a valid driver's license must secure a learner's permit from the driver examiner of the Department of Highways.

There will be no charge made for this permit and it will be valid unless otherwise cancelled, up to a maximum period of twenty-four months.

3. The Minister stated that regulations were being prepared by the Department to deal particularly with the epidemic composed of protruding silver spikes that are found on the wheels of a few of our vehicles.

Parliament's consent to the maintenance of a standing British army was established in the 17th Century as a result of a struggle between the Commons and the Stuart Kings.

PUBLIC NOTICE

THE LIQUOR LICENSING ACT.

SCHOOL OPENING Sept. 1, 1960

All students attending school from grades 7 to 15 will register at the Frank Maddock High School on September 1, 1960. There has been some delay in the completion of the new addition but it should be ready for occupancy in time for school opening.

Staff members for the 1960/61 school year: The Junior and Senior High School are as follows: Mr. T. M. McKenna, Principal; Mrs. J. Pinner, Mr. Keith Millar; Mrs. Keith Millar; Mr. V. Koppchenko; Grade 9: Mrs. M. Zimmerman, Miss N. Fochels, Mrs. S. Beattie; Grade 8: Mrs. C. Gensling, Mr. A. Brown, Mr. P. Cymbaluk; Grade 7: Mr. R. Murray, Mrs. J. Harris, Mr. H. Cymbaluk.

D.V. Highlights

By: Edith Delby

Best wishes are extended to Mr. & Mrs. Carl Canale on the occasion of their marriage.

An old friend of Mrs. Don Robinson's, Mrs. Loge, is visiting for a few days. Mrs. Loge is a resident of Dawson Creek, B.C.

Pat Lish has just returned to her home in Prince Albert after an extended visit with her relatives, the Lyon Nelsons.

Karen Koser has been visiting in Drayton Valley for the past few weeks. Karen is a niece of Mr. Tom Ross. More recently Karen and her cousin, Gail Ross, have been staying with their grandparents, Mr. and Mrs. William Mustard, at Selkirk.

Mr. and Mrs. Hines have had their granddaughter, Rosalee Bradley, visiting them this summer. On Friday night she became quite ill and in two hours she was taken to the Drayton Valley hospital where Dr. W. W. Wough removed a "Very Ripe" appendix.

Mrs. Edward Hill was discharged from hospital on Sunday night. She had been a patient for several days with an attack of pleurisy.

Mr. & Mrs. Charles Seeley of Onoway, and Mrs. Payne of Edmonton were Drayton Valley visitors last week. Mr. Seeley is now on the Onoway teaching staff for many years he was a member of the Divisional School Board for Lac Ste. Anne. Mr. Seeley was most interested in seeing our fine new high school and delighted to note that we had named it in honour of Frank Maddock, an old friend of his.

Mr. and Mrs. Clarence Franks and family have just returned from a holiday spent at Wasco and Maidstone, Sask., and Calgary and Banff.

(Cont. on next Col.)

Excitement runs high these days as many of our teen agers prepare to leave for Red Deer to attend classes at the composite high school. Great concern was felt for a while that Arlene Little would not be able to leave with her friends owing to a relapse following an appendectomy, but on Saturday she was able to leave hospital and "All is Well".

CANADIAN FOOTBALL SUPERIOR TO U.S. GAME SAYS TRIMBLE

(Cont. from Page 5, Col. 5)

That's the opinion of Hamilton Tiger-Cat coach Jim Trimble, an American who coached the Philadelphia Eagles in the National Football League for four years.

Writing in the current Maclean's, Trimble admits he was fired from the Eagles, but adds that he later turned down a chance to return to the NFL because he considers Canadian football a better game.

"The way we play the game up here is better," he says. "I think the whole atmosphere of the game is better, and I think the rules, though less than perfect, make for better spectator appeal."

He concedes that the American player gets better training at an earlier age and is usually "four or five years ahead" of the Canadian player in his development.

But the game itself, he says, is far more exciting. While American football action is halted repeatedly by timeouts, the Canadian game has no such feature, and its action is sustained for much longer periods.

Also, the ball changes hands often in the Canadian game, partly because there are only three downs allowed instead of

four, and because there's frequently punting "which has great appeal."

Fan, he says, like the action that takes place behind the goal line during an attempted rouge -- a means of scoring unknown in the U.S. game. Even an unsuccessful rouge, Trimble points out, can have the fans on their feet and yelling, for "there's nothing that electrifies a crowd like a back turning for his life while the horse closes in on him."

The Hamilton coach says Canadian football is "pro ball" in a college atmosphere--something you won't find in the NFL or the new American Football League.

YOUR FIRE DEPARTMENT

Now that "the two months of hard sledding" is rapidly ending, it's starting to cool off in the evenings enough to warrant turning on the heat occasionally. For the sake of your belongings and a few firemen who hate being rubbed out of a warm bed in the middle of the night, let's hope your heating equipment is clean and ready.

Your fire department asks that you check all gas or oil connections to be sure they don't leak and be especially sure that your chimney is sound and clean. Dirty equipment is not only very dangerous but also rather expensive as it wastes fuel which, as you know, costs.

Be it a rusty old space heater or a brand new fully automatic gas installation, it's a good investment in time and maybe a little money to go through your heating system at least twice a year.

to be sure you won't lose everything you've worked for by fire. We guarantee you'll sleep better, and so, we hope, will your fire department.

We are not sent into this world to do anything into which we can not put our hearts. We have talents work to do for our bread and that is to be done strenuously; other work to do for delight and that is to be done for halves or thirds. But with a will and what is not worth doing well is not worth doing at all.

Lake Superior is the world's largest body of fresh water.

Brazeau Storage Development

Construction of the forms for the 1,000 ft. concrete unwatering conduits.

Construction of the intake gates for the two 1,000 ft. long unwatering conduits. The Brazeau River will be diverted through these conduits while the Dam is being constructed.

Construction of the unwatering conduits at Brazeau. The cleared area in the background will be the centreline of the completed Dam.

BRAZEAU STORAGE DEVELOPMENT PROGRESSES

Work on the Brazeau Storage Development, 100 miles south west of Edmonton, has been under way since early spring.

The initial stage of the multi-million dollar project is designed to provide water storage on the Brazeau River -- a tributary of the North Saskatchewan river -- to help relieve the pollution problem downstream from Edmonton. Water will be stored during the summer run-off and released during the winter low flow period. The initial dam will be 170 ft. high and will provide 300,000 acre feet of storage. 100,000 acre feet of water should be available for the winter of 1961-62. At this time no power will be developed.

At the present time work is progressing on a two shift basis to complete two unwatering conduits each 1000 ft. long and some 18 ft. in diameter. The river will be diverted into these conduits while the dam is being constructed. Vast stock piles of gravel and clay are being made ready for the construction of the earth fill dam -- this will require over 4,000,000 cubic feet of fill. Much of the gravel is being taken from land upstream of the dam site, and must be moved to higher ground as the area will be flooded when the dam is built.

Present plans do not call for the first generating unit to be installed until 1963 or later -- depending on the demand for power. The power plant will be located about 12 miles downstream from the dam site, and water from the dam will be pumped into a canal leading to the power house. From the canal the water will drop nearly 400 feet to the hydraulic turbines. It is presently estimated that, as the demand for power grows, it will be possible to install four or more units of 200,000 H.P. each.

Initial investment by Calgary Power Ltd. is estimated at \$24 millions -- excluding transmission facilities -- and this is expected

to run to about \$80 millions by the time the fourth unit is installed.

on Sunday night August 21st. Damage is said to be estimated at \$25,000 when 2 tank separators and other installations burned. The fire was caused by failure of the motor pumping oil into the pipeline. The wells were turned on the tank overflowed and oil backed up to the flare pit.

Looking at Recreation

More Sure? ...
As the latest surveys taken up by the Athletic Association are temporarily tabulated and that much of the recreation program is reasonably under control. Last week a new phase of the program came into the picture when I started a facility survey of the town. I have already surveyed approximately one half of the local recreation facilities and have compiled, tabulated and closely studied the results of these surveys. I will be a bit too early to make a definite decision as yet, however, I would venture to say that there is certainly not a lack of recreation facilities in the town of Drayton Valley. There may be a few phases of the entire recreation picture that could not be met on a standard basis, however, with proper scheduling and co-operation, I think those would be kept to a minimum. One thing for sure and for certain there are towns much worse off facilitywise than this rapidly progressing community.

This branch of surveying is divided into two classes, indoor and outdoor facilities. Halls, theatres, community centres and covered rinks fall under the former term, while parks, "ball fields" and open air skating and hockey rinks come in under the latter classification. I was amazed particularly with three of the facilities which I surveyed. First the Curling Rink is an fine a building as you would ever ask for. It was expertly built and is in fine condition. It is a building that could be put to great use in a number of ways at different times. Secondly, the open air hockey rink is one of the finest ever. I never before saw an outdoor rink so carefully planned and so solidly built. Its use presently is exclusively reserved to winter months, how ever, there would be use for this facility in the off season if necessary. Last, but not least, the Rotary Community Park has the makings of a splendid recreation area. With proper planning and development, this facility can be made into an outstanding play ground. It is very encouraging, to say the least, to have such facilities at hand in operating and developing a standardized recreation program. Any town should take pride in such as the aforementioned facilities.

Swing Your Partner
In compiling the interest survey I found that there was an outstanding interest in square dancing among the people of this town. In fact, almost one third of the surveyed group actually took part in square dancing or had an interest in this very lively pastime. On talking with some of the people around town I found that there has been an active square dance club in operation in the community for quite some time, and that this fine form of recreation had sunk its roots quite deeply into the popularity of the town folk.

Last week I was told by Mrs. Les Hendon, president of the Square Dance Club, that her organization plans to resume activity again early in September after having been inactive throughout the summer months. Mrs. Hendon hopes that the club, which seemed to falter a bit last spring, will be set up on a new and firmer basis. She hopes that the membership will increase this fall and that the regular dances will be attended by an increasing number of people both young and old.

It is hoped that a proficient square dance caller and instructor will be on hand during the dancing season, therefore, anyone not familiar with the pastime will have a chance to learn the fundamentals. If enough people are interested previous sessions will be held at regular intervals so that this splendid form of recreation will be better understood and enjoyed by one and all.

Football Still in Mind...
Despite the fact that the response to the Pee Wee football survey, run over the past two weeks in this paper, has not been too encouraging, I still think that there will be some organized rugby played among the town's youngsters this fall. So far I have only got a sum total of ten boys interested, however, we must remember that there is any amount of outdoor activity going on right now. I will keep working toward this Pee Wee Football organization, however, and if no worthwhile results are obtained during the next week, I will try to reach the boys through the school, providing permission is obtained to do so.

In the meantime, any young fellow between the ages of ten and fourteen years, who does not weigh over 140 lbs. and who is interested in playing one of Canada's finest games can contact me at the Town Hall any day except Sunday. I am also interested in obtaining coaches for those boys. A couple of gentlemen of the town have already contacted me and agreed to donate their time in this capacity. If you think you would like to work with the boys as a Pee Wee Football coach, I certainly would be glad to have you.

Football may not reach a very high organization level here in Drayton Valley this fall, however, I would like to lay a foundation, I would like to stir some interest and get the wheels rolling in the right direction for the future.

Some Flat Talk...
I have been told that the Drayton Valley Boxing Club will start their training program early in September. The "Valley" boasts of one of the finest amateur boxing clubs in Alberta today, and I would predict a few more Golden Glove championships for our boys again next spring. One thing for certain the boys in "Green and Gold" will give a good account of themselves no matter where they go.

Cheer the "Legionnaires"...

Next Sunday at Thorby, the third and deciding game of the baseball final between the Drayton Valley Legionnaires and Leduc will be played. The teams are now tied at a game apiece; the "Legionnaires" taking the opener at Leduc and dropping the second one at home last Sunday.

I understand that the boys have played fine ball all season and have given Drayton Valley a ball team to be proud of. Now when

the chips are down, let us give them our whole-hearted support. Personally, I think that they will win this crucial game and bring home the trophy next Sunday evening. - Best of Luck-Boys!

Around and About...
When Syl Apps retired some years ago, after a spectacular hockey career with the Toronto Maple Leafs, he said, "I would go on playing four or five more seasons, but I want the fans to remember me as a great hockey player, not as a 'has been.'" Those words came back to me recently when I read that, the internationally famous "Rocky" Maurice Richard was contemplating another season with his beloved Montreal Canadiens. "The 'Rockies' fans (I never belonged to that select group) are very likely to remember him as a 'has been.'" Richard has not much to gain by continuing

to play except for adding to that record which will likely stand up as long as Ray's Sissy Monars. Moreover, Richard is 38 years old and at that age a fellow does not bounce like when he is twenty; hockey is a rough game and the "Old Man" is courting serious injury to say the least. Richard has been a great player; he has a record shattering career. He has nothing to gain by going on. He should take Syl Apps' advice and quit - when quitting is good.

lastly showed his unfamiliarity with the catchers' mix by commiting Min Marilyne Storms, a little farm-gal in the Magnolia district was a recent visitor with her sister Mrs. Pat Stables.

The 4th and 5th runs came in when a long double by Pitcher Sheen was judged by the left fielder, Nedding Someone asked us recently if we or then entered the game but fell know how to spell "Taisur", sure to contain the Ollers, who scored three more times before being retired. The only bright spot in this inning was a tremendous catch by Les Tucker who snugged the longer his ball of the game in deep centerfield. Leduc added its final score in the 13th inning while Legionnaires failed to add to their single run before the final out of the game.

The deciding game, which was to have been played at Thornby next Sunday has now been moved to Leduc, so let's see what you all at Leduc, Sunday, August 28th at 2:30 P.M., to cheer the Legionnaires on to the League Championship. They've already proven themselves able to beat Leduc on their home grounds and Sunday's defeat has made them doubly determined to come out on top in the deciding contest. So let's get behind our team 100% and at the same time watch what should be the best ball game of the year.

New Electrical Firm

A new electrical firm started in Drayton Valley recently when Abe Vanderjagt, Bill McGee and Luke Kilpert set up United Electric with offices in the basement under the bakery, in the former office which George Allenhead used for his electrical work.

Abe expects to take a house trailer out to Cynthia and bring his wife Wilhelmina and three children out from Edmonton. He will then cover the Cynthia end of the business for United Electric.

From Scoop's Notebook

Obey, a Junior J.I. student, of the Oshaw Herald was a recent visitor to Drayton Valley. He was visiting his daughter and son-in-law, Mr. and Mrs. Rose Quinn. Mrs. Quinn and two year old Gordon had spent a few weeks at the old home place in Oshaw visiting her parents and they brought her back to Drayton Valley. Her husband works for Continental Supply.

Editor Stutes said the south-central Saskatchewan town of Oshaw is booming as a result of oil activity there. He said some nice things about the place.

DON'T FORGET JACKPOT BINGO

young lad going through their clothes in the change house recently. He had sneaked up through the bush to the house.

Crewmen chased the culprit and caught him before he got too far, however, and made his fark over the various pocket books, etc. They then locked him in the lower dog house for six hours, then at the end of the shift they took him out, turned the water hose on him and then turned him loose. A much wiser lad, no doubt.

IT'S A SMALL WORLD Dept. in Kallipet, Montana, in the 13th inning while Legionnaires failed to add to their single run before the final out of the game.

Visiting Mr. and Mrs. Bernard Von Tennenborn are Berna's aunt, Frau Malander and daughter, Barbara, of Hannover, West Germany. They came via TCA.

Franklin Maltander will work in an Edmonton hospital for about six weeks before returning home. Her mother plans to return to Germany about September 1st.

Visiting relatives and friends here last week were Mr. and Mrs. Ralph Ostlund and daughters Bonnie Lynn and Cheryl Ann, of Regina, Saskatchewan.

Mr. Ostlund is the former Sharielene. Ralph is now assistant manager at Birks Jewelry in Regina. They are regular subscribers to the P.N.A. and look forward to receiving each edition of the year.

Taking Leo McKernan's place with the Gas Company, for the next couple of weeks is Nick R'us. The McKernan's are on vacation.

Visiting with the Floyd Morris in Drayton Valley recently was Rita Joe McLean of the Queen's Own Rifles.

A new police officer for the Town of Drayton Valley is patrolling the beat now. He is Constable Les Gamblin, formerly of Goodrich. He takes the place of Peter Loburg who resigned to return to Grande Prairie.

Workers on Parker Drilling Rig, which has been drilling a hole a mile south of Rocky Rapids say that they caught a

Fatigue

WHAT DOCTORS ARE LEARNING ABOUT "IMAGINARY" FATIGUE.

Doctors are finding new ways of helping people overcome the most serious form of fatigue -- the so-called "imaginary" fatigue that comes from nervous strain or boredom, according to an article in the current Maclean's.

Writer Franklin Russell reports that research into mental fatigue has been stepped up since World War II, when experiments showed how the efficiency of aircraft operators could be increased. The radar operators became mentally tired and thus inefficient after only 90 minutes on duty. Then authorities found ways of keeping them from being bored, such as phoning them frequently and commenting on how well or how badly they were doing their jobs.

Russell describes how mental strain can result in disaster. He tells of an Italian pilot whose passenger aircraft was kept aloft over New York's Idlewild airport for two hours because of bad weather. Finally, he deliberately put his plane down onto the roof of a warehouse two miles from the runway. He had suffered fatigue "and, in the end, performed a totally irrational act."

Serious highway accidents have occurred for the same reason. One trucker, suffered hallucinations after hours of driving, put his rig into a ditch to avoid an oncoming liner he "saw" blocking the road.

The Minister advised that each announcement on the operator's license (continued on page 2, col. 4)

Stay at the DRAYTON VALLEY HOTEL while you're in town!

Comfortable
Convenient
Fully modern

Extending from the dining room is a large sitting room tastefully furnished and dominated by a large stone fireplace bordered with heavy pine. Four additional smaller sitting rooms are located throughout the building. Each arm of the "U" contains single and double rooms, accommodating 25 persons. Each well furnished room is equipped with a washbowl and toilet and each wing is equipped with a bath. A patio and lawn are enclosed within the three sides of the building.

To date 31 contracts have been let for construction of the homes.

ALBERTA'S HOMES FOR SENIOR CITIZENS

An exterior view of the residence at Ponoka showing the attractive design of the building.

The dining and sitting rooms are brightly lit by the use of large windows along one side.

A well equipped kitchen consisting of the latest auto electric appliances adjoins the dining room.

Constructed and operated in a manner that encourages maintenance of personal dignity and independence, Alberta's homes for Senior Citizens are rapidly opening for residents.

The one storey, U-shaped building is designed along contemporary lines. The base of the "U" houses a well equipped kitchen adjoining a bright modern dining room. The dining room is furnished with tables and chairs seating four. The generous use of glass along the wall provides a bright and cheery atmosphere.

BASE BALL NEWS

By: Ken Machan

Seven turned out to be an unlucky number for Drayton Valley Legionnaires on Sunday, when Leduc Ollers turned in seven runs in the seventh inning to smash a 1-1 tie, and with it, the Legionnaires hopes of ending a best of three final series in two straight games. Leduc added another run in the eighth inning to make the final score 9-1 for Leduc, and square the series at one game apiece. Drayton Valley had previously taken the first game 6-2.

Pitcher Rudy Sheen led the Ollers to their decisive victory by allowing only three hits during the game, striking out nine Drayton Valley batters and walking three. Porter and Redlinger, pitching for the Legionnaires, allowed seven hits, struck out four, gave up six walks, hit two batters and committed two balls.

Leduc led off the scoring with a single run in the third inning while Drayton Valley replied with a single in the fourth. Porter allowed four hits up until the seventh inning when he was ousted in favor of Redlinger after a bout of wildness loaded the bases with one man out. At this point a sore right arm forced catcher Bob Barker to retire to the bench. His place was taken by second baseman Ken Machan who immediately (continued page 10, col. 1)

Of these 18 have been completed and is expected the balance will be in operation this summer. A staff of five is required to operate Drayton Valley, Tomahawk, Highvale, and Stony Plain community centers.

The cost per home to the Province averages \$17,000.00, according to location. Approximate additional cost for furnishing and fixtures is \$30,000.00.

Formal opening ceremonies are planned for early October.

Ladies Ball Tournament at McKay

The Ladies Softball Tournament at McKay last Saturday, August 20th proved Drayton Valley Legionnaires as a winning team once again. The five team lineup for the ball games was Legionnaires, Alberta Telephone Operators, from the Drayton Valley office, Edson, Hinton and McKay.

The Legionnaires started early in the tournament to show what a fine ball team they are by beating the Edson girls 14 to 1. At noon A.G.T. played McKay, a game which ended 5-2 in favor of McKay. Drayton Valley Legionnaires then got a bye. Later in an exhibition game between A.G.T. and Edson A.G.T. came out on top of the heap with a 18-10 score.

At five o'clock the Legionnaires played McKay for the final game and won it handsily with a score of 14-8. The Legionnaires thus became the winner of the tournament and winner also of the \$100.00 top money. Teddy Seiben took over as coach for the game and proved to be a good one, too. Lineup for the Legionnaires was as follows: Rosemary Noas, pitcher and Frankie Shaw, back catcher. Phyllis Cooper, Dorothy Anderson, Elfreda Brandt, Bonnie Boyer, Elsie Shaw, Darlene Aspe, Shirley Carter and Shirley Seiben.

Ganske-Van Der Leest Wedding

Photo by "Jim's Studio"

Fresh-cut flowers decorated the altar of St. Anthony's Catholic Church in Drayton Valley as Wilhelmina Johanne Van Der

Leest and Carl Arthur Ganske exchanged marriage vows in an afternoon double-ring ceremony on Friday, August 19th. The

The honeymoon trip took in Jasper Park. For her going away trip the bride wore a white polka dot sheath dress

Rev. Fr. Klug united the couple in the bonds of holy wedlock. Mrs. Sheehan was organist. The bride was dressed in floor-length white net over satin, bridal gown, with pearl and sequin fringed collar and full length of the gown. Her oval cut shoulder length veil was caught to a pearl and sequin studded headpiece. Her bouquet was of pink roses, attached to white satin streamers.

The brides sister, Miss Joan Van Der Leest, was her bridesmaid. She was dressed in three-quarter length blue and silver gown, with a bouquet of pink carnations.

Attending the groom was the bride's brother Mr. Leo Van Der Leest. Ushers were Mr. Howard Ganske and Mr. Don McLelland.

Following the beautiful wedding ceremony a reception was held in the Elks Hall. To receive guests, Mrs. Ganske, the Mother of the groom, wore a blue and black flowered dress, with pink carnations and white accessories. The mother of the bride, Mrs. Van Der Leest, chose light blue satin dress with pink carnations and white accessories.

A dance in the hall followed the reception.

and white accessories. The young couple will reside in Drayton Valley where they are building a house.

THE Editor's Viewpoint

LUNG CANCER AND CIGARET SMOKING

Medical and scientific evidence has now conclusively proved that the fast rising incidence of lung cancer and the vastly increased consumption of cigarettes are very definitely tied together. It has been definitely proved that cigarette smoking can be a cause of lung cancer and statistics show that lung cancer is increasing rapidly on the North American continent.

An alarming number of cigarette smokers are now very young, much below the legal age of sixteen when they can legally buy cigarettes. Apparently there has been an increasing indifference among teenagers of tobacco, also, to the apparent youthful ages of many of the girls and boys who buy cigarettes.

The law quite plainly states, that cigarettes shall not be sold to those under the age of sixteen, yet boys and girls under

the age of sixteen may be seen smoking and apparently they have no trouble purchasing their own cigarettes.

Sparky says:

They'll play safe when left with a trained sitter

Don't give fire a place to start!

"Hey! The show is not that bad as we saw in the West End!"

LION'S CLUB TRAILER WINNER

Staff photo

Mr. P. G. Neville of Minouli, Montana, was the happy recipient of the Ladee Holiday trailer raffled off by the Drayton Valley Lion's Club during their Rodeo, July 29th and 30th. Mr. Neville is in the real estate and insurance business in Minouli, a long-time in Lions he was District Governor in 1948-49. Mr. Neville came to Drayton Valley with his nephew, Jack Lamb of Strong-Lamb Engineering of Calgary. Seen in the picture are Mr. Lamb, Mr. Don McKennie, Past President of Drayton Valley Lions, seven year old Gary Lamb and trailer winner Mr. Neville.

Staff photo

Nina Scherman and Betty Maysmith, third graders in the Elementary School, line up to get their picture taken.

School Opens With Large Enrollment

School opened in Drayton Valley with a largely increased enrollment over last year. Enrolled on the third day of school in the elementary school were some 770 pupils and in the high school registered around 390 for the 1960-61 session.

The enclosed picture lists the elementary school teachers, Principal John Gray and vice-principal Ken McKay.

The picture shows the burgeoning growth of Drayton Valley as reflected in the large school enrollment.
